There's no Chamoisette Glove except Kauser Chamoisette

> AND don't hesitate to look for the name in the hem of the gloves! If they are not , stamped Kayser you are not obtaining "Chamoisette."

> > You want Kayser-made Gloves

And when you don't get "Chamoisette," you don't

get a glove that is Kaysermade, which insures perfect fit and long wear. It makes all the difference in the world-because Kayser makes gloves the way no other fabric glove-maker can. We've a right to say that, and we do say it over and over again, because we know what we're talking about. Where have you ever seen gloves cut and tai-

lored with all the extra good features you find in Kayser Gloves? We'll tell you how you can know the difference even with your eyes shut-just by the "feel" of them in your hands-the way they slip on and off.

So be sure you get Kayser if you want "Chamoisette"-perfect fit and wear.

st Harristing. The action of this committee was as nitch as to say to all other Democratis that they were to serve merely as rubber stamps at the primary by approxing the choice of McSparran as the party's standard-bearer.

Realizing that their dictated noun lines has made no convincing appeal to the voters of their own party, but its driving many of them to the support of Pinchot who has a constructive policy and program, the Democrats have resorted to an attempted division of Republicans.

Because Alter, for whom many Republicans voted at the primary, was also for pomination by Pinchot, the Democrats have sought to create the impression that Alter and his triends will not now support Pinchot. Alter has refuted this assumption by placing himself squarely on record as standing behind Pinchot's condidacy and triends will not now support Pinchot. Can you build a brick house without bricks?

IF a man told you he was going to build a brick house without using any bricks, you'd think something was wron; with him, wouldn't you?

Well, then, what about the man or woman who plans to build a sturdy human body but neglects to cat the hind of food that builds that kind of body?

Many "refined" and denatured foods are helding in the mineral elements which the body requires—especially for benes, nerves and teeth.

You do get the right mineral elements in Grapt - Nuts-the delicious cereal food made from whole wheat flour and malted barley.

Every bit of the nutrition which Nature puts into the grains is retained in making Grape-Nuts. Lime phosphates, iron, magnesium, potassium-are all there. And then, too, there's that wonderful flavor and crispness that makes cating a joy.

Try Grape-Nuts with cream or milk for breakfist or lunch tomorrow, and see it you haven't been missing an unusually delicious and sustain strad. Sold wherever good food is sold or served.

The discovery that Belding alluded

was one that might very well lead to the making of a worderful and agricultural district of Altar valley. While in college Dick Gule had studied

engineering, but he had not set the scientific world after with his bril-llance. Nevertheless, his smattering

of engineering skill bore fruit in the

last place on earth where anything might have been expected of it—in the desert. Gale had always won-

dered about the source of Forlows

River. He had discovered a long, nar-row, rock-bottomed and rock-walled

guich that could be dammed at the

lower end by the dynamiting of lean-ing cliffs above. An inexhaustible supply of water could be stored there.

Furthermore, he had worked out an irrigation plan to bring the water down for mining uses, and to make a paradise out of that part of Altar

valley which lay in the United States. Belding claimed there was gold in the arroyes, gold in the guickes, not in

quantities to make a prospector re-joice, but enough to work for. And the soil on the higher levels of Altar

valley needed only water to make it grow anything the year round. Gair, too, had come to have dreams of a future for Forlorn Pilver.

On the afternoon of the following

day Ladd unexpectedly appeared leading a lame and lathered horse into the yard. The legs of the horse were raw

It never occurred to Gale to abandon the poor fellow. All the came, he knew he multiplied his perilt a hundredfold by burdening hims if with a crippled Indian. Swiftly he set to work, and with rifle ever under his hand, and shifting glunca sparred from his task, he bound up the Yaqti's wounds. At the same time he kept keen watch.

The Indians' burros and the borses of the raiders were all out of sight. Time was too valuable for Gale to use any in what might be vain search. Gulo kept pace with his horse. He borr the twinge or pain that darted through his injured hip at every stride. In the heat of midday he halted in the shade of a rock, and, lifting the Yaqui down, gave him a drink. Then, after a long, sweeping survey of the surrounding desert, he removed Sol's saddie und let him roll, and took for him-self a welcome rest und a bite to eat. The Yaqui was tenacious of life. He was still holding his own. For the first time Gale really looked at the Indian to study him. He had a large head nobly cast, and a face that resembled a shrunken mask. It seemed chiseled in the dark-eyed, volcanic lays of his Sonora wilderness. The

Indian's eyes were always black and my tic, but this Yaqui's encompassed all the tragic desolution of the resert. They were fixed on Gale, moved only when he moved.

Galo resumed his homeward journey He held grindy by the side of the tireless, implacable horse, holding the Yaqui on the saidite, taking the brant of the merciless thoras. # When are women 9 times as important as men?

"Women spend nine-tenths of all the money required to shelter, clothe and feed America. Men spend only one-tenth. Women, therefore, are directly responsible for the manufacture of new household improvements and new economical foods;" so a noted household writer tells us.

Yes, alert women know that true home harmony often springs directly from thoughtful study of their business (the important business of home-making). Naturally, they are always looking for new home savings; such economies, for example, as Brednut-the new approved spread for bread.

You will not be surprised that Brednut makes so delicious a spread for bread, rolls and biscuits when you learn that it is produced from pasteurized milk and rich tropical nuts.

Pastcurized milk! Lupical nuts! A delicious new home economy!

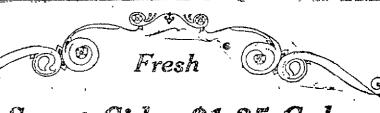

Time and again husbands have this and again hashands have told us that they detect no "difference," except in the saving effected. It will be a real pleasure to see your children enjoy a kind of food whose value and digestibility are commended by the U.S. Department of Agricultura

Fresh flavored Brednut comes to you uncolored - a pure white. When you buy, your grocer will give you a wholesome vegetable muterial which will quickly color your Brednut to a rich golden yellow.
